Certifications: Woman-Owned, Minority, and Small Business Enterprise (WOSB/MBE/SBE)

 **Differentiators**

- 10+ years of experience in AI, User Experience design (certified), and digital systems (websites/ mobile apps) across sectors.
- Skilled in designing compliant, accessible systems that meet Section 508, ADA, and data privacy standards for public-sector.
- Achieved a 40% reduction in website bounce rates and doubled lead generation through digital optimization.
- Improved accessibility in systems, preventing a client from \$250,000 in legal and compliance costs while enhancing usability.

 **Past Performance**

- **A Holistic Therapy Group (Dallas, TX)** : Designed and implemented an ADA-compliant digital platform with integrated automation for scheduling and intake workflows. Increased bookings and intake completion by 50% within three months while improving onboarding efficiency and maintaining HIPAA-aligned data handling practices.
- **Grand Canyon University (Phoenix, AZ)**: Delivered AI-focused education and workforce readiness training, including AI-assisted job search strategies and resume optimization. Improved student digital literacy and workforce readiness through practical AI tool adoption.
- **Blurb & Mixbook Interactive Memories (San Francisco, CA)**: Managed the development of ADA-compliant digital tools and implementation of generative AI features. Improved product engagement, resulting in approximately 32% year-over-year revenue growth.

We focus on modernizing operations, improving service delivery, and ensuring compliance with accessibility and data privacy standards by increasing efficiency and reducing manual processes.

 **Core Competencies****AI Automation & Intelligent Systems**

Develop and deploy AI agents, chatbots, and workflow automation solutions that streamline operations and reduce response times.

Digital Systems Development & Accessibility

Design and implement Section 508 and ADA-compliant digital platforms that improve usability, accessibility, and long-term system performance.

Data & Analytics Solutions

Build dashboards and reporting systems that transform complex data into actionable insights for decision-makers.

AI Training & Workforce Enablement

Provide hands-on training programs that help teams adopt AI tools and integrate automation into daily workflows.
